As you might have already been told, there are also summaries of usual issues, concerns, and valued interest topics available by the same request for your company or personal need. Assured, please see “edougAboutSNT.com”

Also, please note there has been some recent inconsistent service-contact availability and communication errors by email, phone, and mail. This does not in any way reflect Doug’s usual or SNT’s quality of products and services including mentioned websites, computers, phones. In fact, bridge and leveraging (project) preparation less defined crisis multi-effects can be normal and usual -expected.
